THE SPIRITUAL ACTIVITIES OF JUNE AND JULY

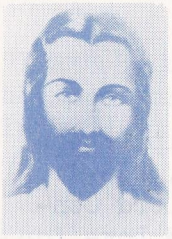
The Temple of Precipitation

On June 15th, 1961, the Temple of Precipitation located in the Rocky Mountains of Wyoming, U.S.A., under the guardianship of Lord Lanto and Lord Confucius, begins Its outpouring of Light and Love for the assistance of all life on the planet Earth. It will remain open through July 14th. This Flame is a Chinese green with a golden radiance. During this time the Karmic Board will meet in this Temple to consider the petitions and plans presented by the Hierarchy (and unascended chelas as well) for the benefit of mankind during the remaining six months of the year 1961.

The Temple of Illumination

From July 15th through August 14th, 1961, the Temple of Illumination will be open for the second time this year. This great Focus of Light is under the Guardianship of the Great God and Goddess Meru, Who are the Sponsors for the entire year of 1961. It is located near Lake Titicaca on the Peruvian-Bolivian border in South America. The Radiation of Divine Illumination and understanding, Love and Peace will be accentuated during this time and the earnest students should call this Mighty Flame not only into their own beings and worlds but through all mankind, especially those in positions of trust and authority throughout the world.

The Asala Festival



Lord Divino

On July 27th, 1961, at 2:51 P. M. EST, the Members of the Great White Brotherhood meet officially in the private residence of Lord Divino* on the Southern slopes of the Himalayan mountains to commemorate the delivery by Lord Gautama Buddha** of His first announcement of the great discovery, and the sermon which He preached to His five disciples. It explains for the first time the Four Noble Truths and the Noble Eightfold Path, expounding the great "middle way" of the Buddha, rather than the asceticism on the one hand and the worldly life on the other.

This meeting takes place each year at the time of the full moon in July and the students can attend in their finer bodies. Lord Divino has ordained, that each year the same sermon His Great Friend Lord Gautama gave, be recited in the Presence of the Great White Brotherhood assembled.

The Four Noble Truths are: 1. Sorrow and suffering (which must be removed); 2. The Cause of Sorrow; 3. The End of Sorrow (or escape from it); 4. The Way which leads to the Escape from Sorrow. The Noble Eightfold Path has the following steps: 1. Right Belief; 2. Right Thought; 3. Right Speech; 4. Right Action; 5. Right Means of Livelihood; 6. Right Exertion or Endeavor; 7. Right Remembrance; and 8. Right Meditation or Concentration.

MAN IS A PRECIPITATING PRESENCE
by Hilarion

The nature of man's being is Precipitation! The natural activity of his life is precipitation. Through the thousands of pores in the body there are constantly flowing streams of electronic energy which are precipitated into the Universe about him. Even while man sleeps there flows forth from his inanimate body a radiation which is a precipitation of the substance of his lifestream into the Universe.

If you will visualize the great Victoria Falls that pour countless tons of energy into the rapidly moving river below, you will have a picture of man's reality - a constantly rushing stream of precipitated Light - that becomes the current of the river and flows forth into the Universe.

For man to struggle to acquire the power of precipitation is a travesty, for there is no moment, waking or sleeping, day or night, when even the most ignorant and ungoverned being is not precipitating. The forces of the four elements precipitate and even the animal kingdom send forth a radiation. Therefore the fundamental principle to be learned is not HOW to precipitate, but WHAT! One day man will understand the Precipitating Ray which is an activity of his being.

Man has precipitated disasters and limitations as well as all kinds of ailments of the flesh and of his mind, emotions and environment. He can precipitate an argument without any effort. Therefore, you can see that man HAS the power of precipitation BUT

he has not learned to use that power in a constructive manner.

Since man's consciousness is the sum total of the thoughts and feelings in his world, then the pure energy precipitated through an individual's consciousness becomes an outpouring of the various inner thoughts, feelings and emotions.

To precipitate consciously, one must change the qualification of the energy WITHIN! You might say:

"I AM" the Ascended Masters' USE of the Power of Precipitation;

"I AM" the God Presence locking my power of Precipitation in the Ascended Masters' Consciousness;

"I AM" the Precipitating Presence in action, precipitating Perfection into my mind, body, being, world and affairs."

If the machines which are being prepared were released, and the students could see the electronic energy precipitated through the body in even the most casual gesture, they would realize their God Power. Precipitation is not a Power that has not been conferred; it is a power that is in constant use - but ungoverned - except by the Higher Mind and it is the Divine Plan that all men shall bring Perfection through the conscious use of this faculty.

YOUNG PEOPLES' PAGE

Now that the nine months probationship has passed since the Youth met at the Summer Class, they are prepared to be of greater service. The previous months have been a training ground for them to study and prepare to be a channel to draw more young people into this understanding of Truth.

In this Year of Divine Illumination, regardless of which Retreat is open, they should frequently ask to go to the Temple of Illumination at Lake Titicaca and be charged with the understanding and feeling of how they can best serve and then follow those promptings they receive to the best of their ability and thus learn to listen to the God within, and be divinely directed at all times.

The Youth need to be anchored firmly in their God Presence and daily, before leaving their rooms be charged with positive energy so that they radiate out the Truth and the Peace so much needed to harmonize the various conditions they meet; but they should NEVER do anything that would appear "queer" to others in the outer world. The more "normal" they appear, the better channel they are for the Ascended Masters to use as conductors of the Ascended Master Qualities.

These wonderful brave young people need all the help possible to carry the Light through to Victory. All students can make the following call:

"BELOVED PRESENCE OF GOD "I AM" IN ME AND GREAT HOST OF ASCENDED MASTERS: RAISE UP THOSE YOUTH(3) all over the world who will assist in bringing the ERA OF FREEDOM into manifestation NOW!"

THE BUSINESS MEN'S PAGE
by John Muir

Are you worried about money or debt? If you are, a right concept about money and debt will solve your problem. Money is a medium of exchange, a symbol of compensation for services or goods received. It is a great saver of time and personal effort. It is a means of spreading the Truth to your fellowman. It should not be carelessly spent but wisely used.

If you are in debt now, don't worry about it! Worry has never solved any problem. The only thing you owe another is Love! Be grateful that you are in debt; it shows that someone trusts you! It shows that someone knows that you are honest and that you have the capacity to fulfill your obligations. Is this not a compliment? Are you going to allow your creditor to believe in you more than you believe in yourself? Remember, debt is a symbol of trust, of confidence, of faith.

Your creditor is unconsciously right when he trusts you because YOU, as the Image and Likeness of God, have the capacity to manifest abundance of money and all good things. You only have to use your capacities. Open new fields of service and you will see that money, the symbol of compensation for services rendered, will flow into you and you will quite easily meet all your obligations.

You have to take human steps to solve your problem, but precede them always with an invocation to the God Presence in you for inspiration and guidance; and to our Ascended Master El Morya, the patron of executives, to go before you each day and clear the way for your manifestation of abundance of good things.

THE SPIRIT OF THE HOME
by Beloved Kuthumi

The Spirit of the Home has been little considered by individuals as a living, breathing entity with a consciousness and an evolution of It's own, which is controlled and affected by the lifestreams who dwell within the aura of such an elemental spirit.

As you readily understand, the forces of the four elements in your body are impressionable and take on the qualities and characteristics that your energy has poured through them in succeeding embodiments. The Spirit of the Home is of this same Elemental Race and It is also subject to the qualifications of the lifestreams and the outpouring of the breath of the individuals who dwell within it.

When the idea or blueprint or plan of the simplest habitation is formed in the mind of man, at that time the God power which gave the idea to man, draws an elemental spirit to be the guarding and protecting Presence of that manifestation. In fact, all manifest form has such an invisible elemental guard from the smallest stone to the greatest castle. As the home is materialized and drawn into visible form, this Elemental Spirit overshadows it, and much as the Causal Body of a brand new Spirit contains no color, so this Elemental Spirit, without any qualification of imperfection, is but a vibrant pulsating Being, more or less at the mercy of the lifestreams who will inhabit the home and govern the forcefield around the home, which is in truth, the body of this Elemental Spirit.

Looking at long stretches of small, modest homes yet uninhabited as We walk the streets of man and as the Elemental Spirits greet us in Their gentle way, We could but wish that all their fates were to be happy and harmonious ones. In the final accounting, of course, it will be so, but these elemental guarding Presences await the entrance of a family into a home with the same anticipation individuals await the birth of a child, or a new member of the family whom none have seen or heard.

In Europe particularly, where the great feudal castles and manors of great beauty have endured through the centuries, and the leafy arms of the elemental guarding Spirit stretch far across the countryside embracing acres of land, We find those Spirits heavily embued with the qualities and characteristics of the families who have breathed out their consciousness embodiment after embodiment. The etheric records within these great Elemental Devas in charge of these exquisite residences, are badly scarred with the imperfect records of totally unconscious human beings who were writing their history on the body of a living Being! When God has given man such beauty and such protection, it seems difficult to understand how the forces of the four elements through the fiat of the Father, must bear the weight of man's iniquity so long and so silently.

When a home has fallen into dissolution and is reclaimed and beautified, the Spirit of that home becomes very grateful and happy as the inner records of that beauty express, and the Spirit of that home in turn outpours a blessing upon the lifestreams who have made possible that beauty and perfection.

Individuals must realize that the Spirit of the Home is a conscious Being and will demand the life energy of such individuals, even as other personalities do. This great guarding Presence must be the intelligent direction of the God Self of those engaged in spiritual pursuit, but afforded a certain acknowledgment and outpouring of force to keep it in divine order, BUT it must not be allowed to become a vampire activity that takes the life blood and the time and the attention of the individual which belongs first to God.

The Spirit of the Home, being an elemental form and focus of Light, must always be under the intelligent direction of the Three-fold Flame in the Heart that says always to mankind, to the Angelic Host, to the elemental spirit: "I AM" THE LORD, THY GOD: THOU SHALT HAVE NO OTHER GODS BEFORE ME!"

When the great unfolding radiation of the Spirit of the Home feels the happiness and exhileration as currents of beauty flow through It, It will attempt to make the same demands upon the lifestreams as will any individual given an undue share of attention. Any man who puts a person, place, condition or thing before his time undivided to God, must come again until he realizes that the adoration to the God Power will fill the home with great perfection, will raise up Ascended Master Friends to fill every requirement, and will fill the life and all connected with the home with the Spiritual Consciousness of Peace.

THE ABC OF THE BRIDGE TEACHINGS

A COURSE OF SIX LESSONS ON SIXTY BASIC TOPICS

Compiled by PAUL PLAZ

Lord Lanto

LESSON II. - What Surrounds the Student

11. Effluvia of mankind

The consciousness of the original inhabitants of the Earth, through suggestion and radiation, created a mist or veil of discordant creation, at first like a cloud - an effluvia - that could be dispelled by a strong wind, but as it grew it became a barrier insurmountable, created by the sons of men, through which the Ascended Host could reach them with great difficulty. This effluvia, the discordant thoughts and feelings of mankind, created the psychic or astral realm.

These imperfect thought forms float out into the atmosphere of the planet where they remain until they are drawn into a strata of similarly vibrating substance. This discordantly qualified energy forms itself into strata, one piled on top of the other like layers of a cake, each stratum vibrating to the quality of which it is composed and growing larger as more of mankind dwell, either secretly or openly upon thoughts of impurity, passion, greed, etc. Such people add to this mass effluvia of the planet and others tune into that and draw that mass evil into their own beings and worlds.

12. Negative thoughts and feelings

The majority of mankind live within this psychic and astral realm which extends up to the ten thousand foot level. The creative centers of mankind - their thoughts and feelings - are either contributing to the atmosphere of the Inner Realms of Light (which should be the atmosphere of Earth) or they are contributing to the death shroud of the Earth. The lower atmosphere of Earth is saturated with this effluvia made up of the negative thoughts and feelings, as well as the destructively qualified energy which is constantly emanating from the uncontrolled thought and feeling centers of mankind. Mankind are held responsible for the injurious effect this action of their thoughts and feelings has on their fellowman.

13. Results of past karma

One of the initial gifts from the God-Parents to

each lifestream was Free Will. Each individual in each life creates a certain amount of what is called destructive karma which is the misuse of Life, and this karma acts on many planes determined by which body was the chief offender. The first imperfect thought a man had, energized by feeling, was a cause, and that cause sent into the atmosphere created an effect. Like a boomerang, the effect came back into the consciousness and made a record. That record made the impression that energy sent out in a certain manner, returned to affect the life-stream who had sent it forth, and there began to be created a shadow between the "I AM" and the human consciousness.

14. The psychic realm

When from the consciousness of both the laggards and the people of Earth flowed this discord, just as a fog flows over the earth and sea, so did this veil cut off the inner sight and shut out mankind from conscious association with the Angelic Host and Ascended Masters. As the discord flowed forth, that was the beginning of what is known as the astral and psychic realms, which is the place where all the discord of Earth goes. The original Lords of Karma were designed only as a governing body to see that each Root Race and Sub-race came into embodiment at the appointed time and not to render any service of judgment. When the psychic realm was created by mankind's misuse of their life energy, the Karmic Board was increased from three to seven and They had to arrange for the balancing of the discord of the race.

15. Prana

Prana is the very essence of Life Itself, drawn from the Great Universal Life that fills all space. It is the fiery substance that is charged into the breath and animates all life on the planet. The portion of Universal Life appropriated by each organism is called Prana. Consciously invoking or receiving pure prana requires more spirituality.

16. Legions of Angels

If it were not for the personal Presence of the Angelic Host Who come in response to the Heart Call, no one would live beyond the twelfth birthday. They create and sustain a canopy of Their own Light around mankind and create a heavenly environment. There are individuals and groups on the planet calling for the purification of the race, and through these open doors, the Angelic Legions come and go north, south, east and west, and transmute and remove those pressures of thought and feeling forms of impurity of every kind.

17. The Sacred Fire

The Sacred Fire is that God Life drawn and charged with a specific God virtue. Great Divine Beings have drawn and consciously qualified great stock-piles of energy (life) which They have charged with a particular God Virtue, from which man can draw and charge into his own being and world. The God Life passing through each individual is part of the Sacred Fire - when man qualifies that Life with a constructive quality, it becomes part of the Sacred Fire - when he qualifies it with discord, it becomes the human creation that some day must be

transmuted back into Sacred Fire. Man can qualify himself to be both a qualifying agent of his own energies and also to invoke from any of the Divine Beings the many, many qualities of the Sacred Fire, like Illumined Faith, etc.

18. Light Rays

The Ascended Host of Light generate and project the Light Rays to help dissipate the evils created by mankind before mankind has to reap the imperfect harvest they have sown. The earnest student should endeavor to magnetize and direct these Light Rays whenever and wherever needed to remove distress and to bring peace, healing, protection, enlightenment and God-control to their fellowman.

19. Music of the Spheres

The glorious Music of the Spheres and the Anthems of the Celestial Choirs are not afar off, but flow through the very atmosphere in which mankind live and have their being. Although the Elohim Vista and the Mighty Legions belonging to the Music Sphere are concentrated expressions of the Music of the Spheres, yet through every Ascended Lifestream flows exquisite music, beautiful color, tone and fragrance of the natural outpouring of God's Grace. The Realm referred to as The Ascended Masters' Octave is a Realm of Music, Perfume, Beauty, Peace and Perfection. Contemplating the above, you can see how you may call forth through your own lifestream oceans of harmonious energy, for the Universe is literally saturated with it.

(continued on page 21)

H E A L T H

By Margaret Marsh

The student so many times forgets that HE IS GOD IN ACTION literally (and so is everyone else) and that he wields tremendous power when he chooses to make the effort to do so in a positive and constructive manner. Many times it seems easier to accept the imperfect thing trying to manifest than to rise up in the dignity and power of the God Presence "I AM" and order it out, and consciously dissolve and transmute it into perfection.

We are told that everything acts back to us the quality (or feeling) we give to it, hence the necessity of being alert and seeing only GOOD in everyone and everything you contact, and knowing deeply within, that THERE IS ONLY GOD ACTING whatever the appearance may be, for truly all energy and life is of God, and any imperfection is the result of man's discordant qualification imposed upon it.

Only by trying out the different applications will you find the particular one that seems to "click" with you. There is a time to get still, a time to read, a time to contemplate, and there is a time for dynamic application and the refusing of imperfection into your body and world, and setting the pattern for the constructive things you do want there.

While you are blessed with good health, give praise and thanks to the God Presence within, but do not rest on your oars. Constantly work to sustain it, and keep removed by the Violet Fire all imperfections that might knock at your door, and hold your pattern of perfection until it manifests - for it will!

OPULENCE

By Ralph Yancy

We are told there is ONE GOD, ONE INTELLIGENCE, ONE SUBSTANCE omnipresent and that all form has come forth from the one primal substance Light! We are surrounded by an ocean of this primal light-substance that is obedient to the Three-fold Flame in each heart and takes on the form of whatever the individual thinks in his mind and energizes by his feelings and holds long enough for it to manifest. Lack and limitation is not the divine plan, for Life is abundant and is to be used but never wasted; to either waste or hoard things is a misuse of life and brings a penalty of some kind.

Suppose you follow the Seven Steps of manifestation as given by the Seven Elohim! 1. Hercules says you must WILL TO DO whatever constructive thing you decide upon; 2. Cassiopeia says to contemplate the idea which makes the form; 3. Enjoy it so that your Love may pour into it as Orion does; 4. Hold fast to the original idea and do not keep changing it as Beloved Claire instructs us; 5. Stay with the idea, CONCENTRATE Vista says; 6. Then give it your attention RHYTHMICALLY as Arcturus does; 7. Call to the Elohim of Peace, Tranquility, to SEAL it in His Flame of Peace so it will endure forever.

Choose only those things to bring forth which are worthy to live forever, and keep silent that which you are doing. All is a precipitation from God even when it comes through a seemingly natural channel.

PEACE

By Fred Bruce

The ATTENTION is one of the most powerful activities to raise the student into harmony, peace, supply and all he desires. It is like a lever that can either raise you to the heights or lower you to the depths, according to what it is upon.

When you read or hear of some cruel act, before you read that you were reasonably harmonious, but when you give your attention to such a report, you bristle with indignation which creates a disturbance in your feelings. When you give your attention to the Ascended Masters and Their words, and put your attention on Their God Virtues and Qualities, you immediately feel confidence, happiness and peace. What your attention is firmly held upon will come into your world whether it is something good or something destructive, and whether you want it or not! And this brings you to the point of discipline where you must consciously draw only constructive things into your world, especially PEACE which is so much needed in the world today.

It is not necessary to spend hours each day to hold your attention on perfection, just center it the first thing in the morning on the "I AM" within and let everything go forth from there. Hold the thoughts "I AM" THE PRESENCE ACTING IN MY WORLD; "I AM" THE PRESENCE THINKING THROUGH MY BRAIN; FEELING THROUGH MY FEELINGS - "I AM" THE ONLY PRESENCE ACTING THROUGH EVERYONE I CONTACT"; "I AM" THE PEACE COMMANDING PRESENCE." If you will do this, you will have and radiate PEACE!

E N L I G H T E N M E N T

By Mabel Hopkins

In this wonderful year of Divine Illumination, we are becoming acquainted with many Divine Beings we have not known before and receiving marvelous instruction. With all that is being given, we need to remember again and again, the one important fact which alone can set us free (either here on Earth or in the Victory of the Ascension) and that is the recognition, acceptance and deep devotion to the CHRIST SELF - "I AM" - alive within us. Only IT can set us free, and we should honor It with our every thought, feeling, word and act and allow It the courtesy of expressing in our every day living. The human has become so accustomed to making decisions from the appearances it sees, which are never the Truth, that it takes real discipline and determination to remember to GET STILL, even while performing other duties, and receive the gentle prompting which the God Presence "I AM" is always endeavoring to give us.

Learn to hold the solar plexus up tight; then turn your attention to the "I AM" within and pour your love to It; then interpret the prompting you receive to the best of your ability and FOLLOW IT THROUGH and thus prove to yourself whether it is your God self or the human directing; If the human, you still will go around in circles, but if the Presence, you will have a happy feeling that all is well.

Practice makes perfect so hourly endeavor to LOOSE the CHRIST WITHIN and constantly be about the Father'S Business!

EXCERPT FROM LANTO

You may wonder that with the great power of the Ascended Masters, We do not still the discord and inharmony in your experiences. With one breath We could silence every rate of vibratory action that causes you distress, but that would not be your Victory! The Cosmic Law does not permit Us to release Our Powers to solve your problems except in answer to your specific calls to Us for assistance.

(continued from page 16)

20. God Consciousness

Since we live, move and have our Being in the very Body of God, then we know God and His Consciousness does surround us since He is Omnipresent and Omniscient and we can never get away from It. We are allowing God's Consciousness to express through us when our thoughts and feelings are "in tune" with God's Perfection of Good, Beauty, Peace and all the God Virtues. When impurity, discord and imperfections express, it is not God's Consciousness but God's Energy and Life which has had those human qualities imposed upon it by human beings. To express the God Consciousness, which surrounds us, keep the attention and feelings centered on the God Virtues and Perfection.

In next issue: Lesson III - Other Evolutions.

In our editorial in the January 1960 "Bridge" magazine, we announced four steps of progress. Today, we are announcing a Fifth step, namely the removal of The Mother House of our Beloved Maha Chohan (and the Headquarters of The Bridge to Freedom Activity) carried out under His personal directions from Charlottesville, Va., to St. James, Long Island, N.Y.

EL MORYA

The purpose to be achieved at Charlottesville, by the Hierarchy and the Heart Center of the Activity, was realized sooner than was expected, for which the whole Staff merits the congratulations of the Hierarchy.

Several strategic points in America and in the world are being spiritually reinforced for protection of wide areas in relation to the coming changes connected with the straightening of the Axis of the Earth; and the Heart Center of The Bridge Activity has been assigned now to render on Long Island the same service they rendered so successfully in Virginia. This is our Fifth step of progress. We continue therefore, in the process of the vitalization and expansion of The Bridge to Freedom Activity.

Our new address is P. O. Box 777, St. James, Long Island, New York, U.S.A.
